

COVID Testing Options - Decision Tree

Staff		
Situation	Testing Recommendation	Test Options
Identified close contact, regardless of vaccination status.	May continue to go to work as long as you remain asymptomatic. Consider wearing a well-fitting mask for 10 days.	Strongly encouraged to get tested 3-5 days post exposure. Rapid antigen test available at work, or PCR test at ESD 113 or other community testing option.
Identified household exposure for unvaccinated or not fully vaccinated (no booster).	May continue to go to work as long as you remain asymptomatic. Consider wearing a well-fitting mask for 10 days.	Required to test immediately upon notification, on day 3-5, and on day 7-10. Rapid antigen test available at work.
Outbreak exposure regardless of vaccination status.	May continue to go to work as long as you remain asymptomatic. Consider wearing a well-fitting mask for 10 days.*	Required to test immediately upon notification, on day 3-5, and on day 7-10. Rapid antigen test available at work.
Symptomatic, regardless of vaccination status.	Go home and get tested immediately.	Strongly encouraged to get tested as soon as possible. Rapid antigen tests available at work, or PCR test at ESD 113 or other community testing option.

Students		
Situation	Testing Recommendation	Test Options
Identified close contact, regardless of vaccination status.	May continue to go to school as long as you remain asymptomatic. Consider wearing a well-fitting mask for 10 days.	Strongly encouraged to get tested 3-5 days post exposure. Rapid antigen test available at school, or PCR test at ESD 113 or other community testing option.
Identified household exposure for unvaccinated or not fully vaccinated.	May continue to go to school as long as you remain asymptomatic. Consider wearing a well-fitting mask for 10 days.	Required to test immediately upon notification, on day 3-5, and on day 7-10. Rapid antigen test available at school.
